

Eliminate the Cost and Complexity of Traditional ELM Software

LegalBill: There's no easier way to manage matters, vendors and invoices.

 QUOVANT
LegalBill

Are expensive, complex and time-consuming solutions really solutions?

Enterprise legal management systems are often more work than they're worth. They're too cumbersome, too costly and, frankly, more than small- to mid-size legal departments need. You want a solution that fits your organization, not more cost or more complications. So we made sure LegalBill was easy to implement, easy to use and cost-effective enough to pay for itself.

You'll be able to manage matters and outside counsel spend, plus get clarity on the overall performance of your law firms.

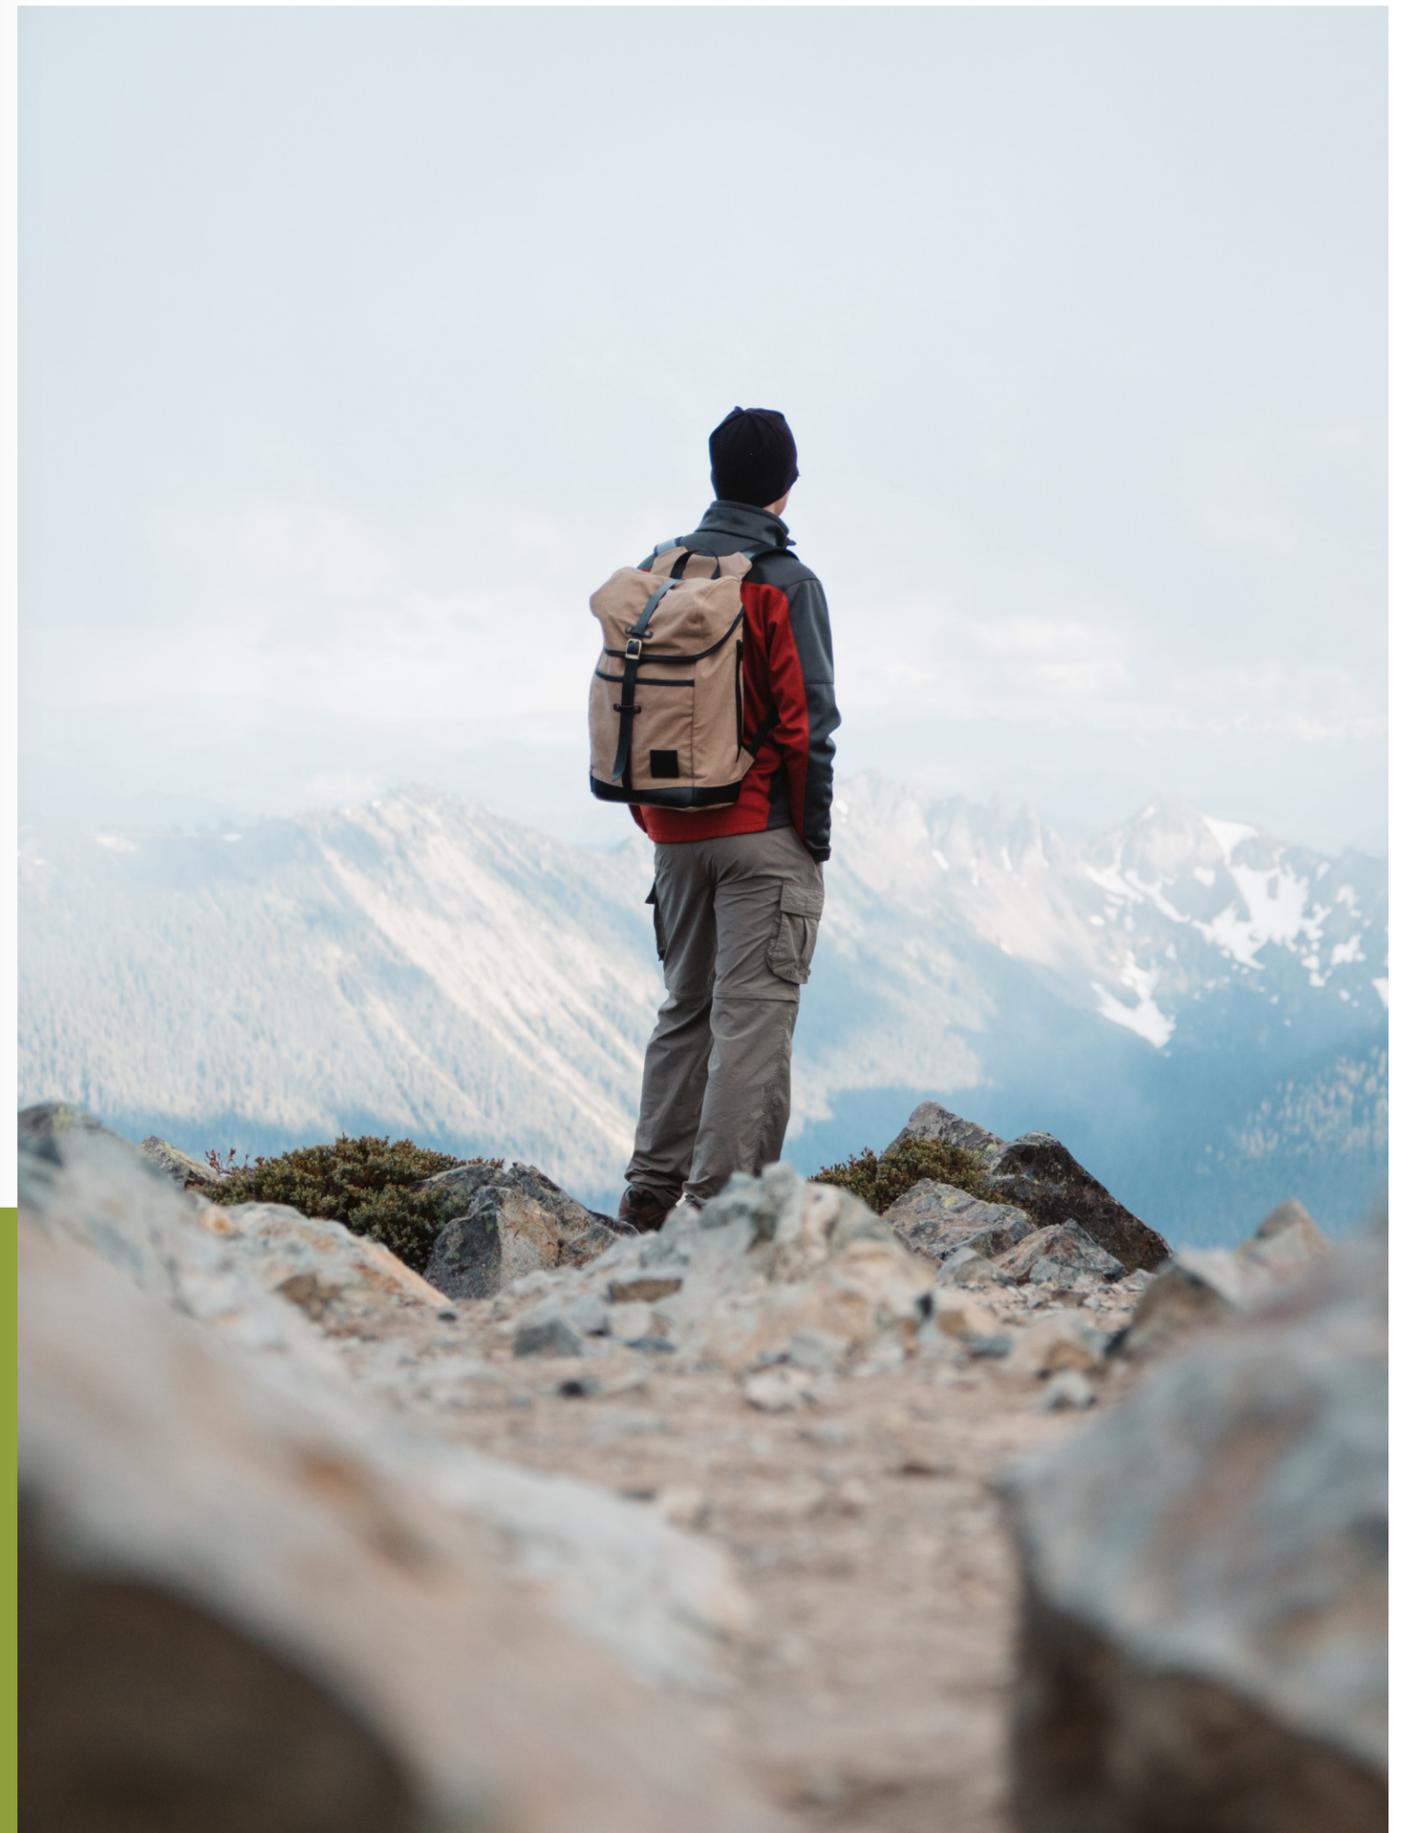

You'll know who does the best work most efficiently. And you'll know precisely how your legal dollars are being spent.

How can we be so confident? We've reviewed millions of hours and billions of dollars in legal spend, and we've turned that extensive expertise into a powerful, cloud-based solution for matter management, eBilling, invoice review and reporting.

So you can see what your lawyers—and their bills—are up to, while saving valuable time and money.

We've spent two decades poring over legal bills. Of course we came up with an easier way to do it.

- LegalBill cuts the cost and complexity out of managing matters, invoices and legal bill review. It's that simple.
- LegalBill automatically reviews every invoice, and since it's configured to your billing guidelines and workflow, you'll know every bill is in compliance.
- All your budget, spend, matter, vendor, document and status details are kept in one, easy-to-access location, so it's easier for everyone to work with—making it easier for everyone to work together.
- And it's all in the cloud, so you can turn it on tomorrow without costly implementation fees or rollout hassles.

You'll have instant access to everything you need.

Dynamic dashboards give you a crystal-clear look into what your team is up to, where you can save, what you're doing best and where you can do better.

- Manage matters as well as invoice, TK rate, and budget approvals in one easy dashboard.
- Take advantage of multiple dashboard views for company stakeholders — from legal to finance.
- Get a one-look view into what you've approved, billed and saved.
- Create custom widgets to track the matter and spend data you care about most.

You'll simplify matter, vendor, invoice and document management.

Centralize all your legal data, so you can improve workflow, collaboration and communication with internal and external stakeholders.

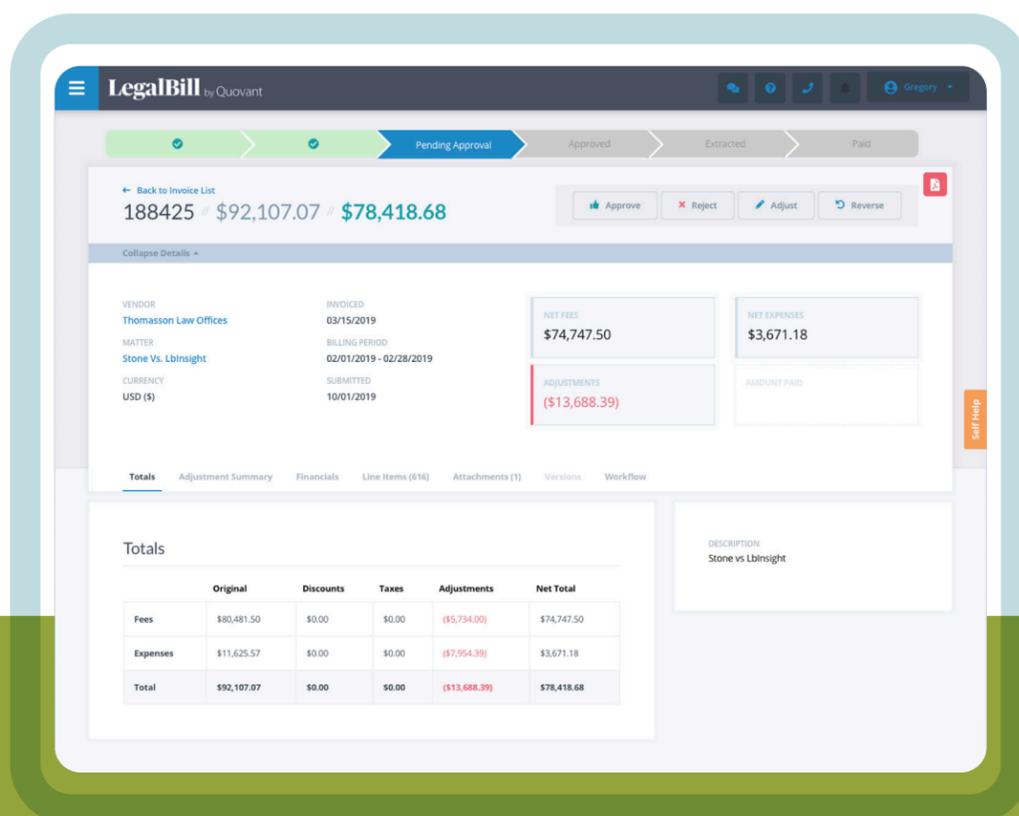

- Build a complete record of each matter including external documents and email correspondence.
- Activate the law firm portal so outside vendors can submit electronic invoices (ebill), enter timekeepers and submit budgets.
- Set up internal workflows to streamline the routing, notification and approval of invoice, timekeeper and budget data.

You'll make quick work of invoices.

LegalBill uses best-practice guidelines to automatically validate and adjudicate each invoice, taking time and tasks off your to-do list.

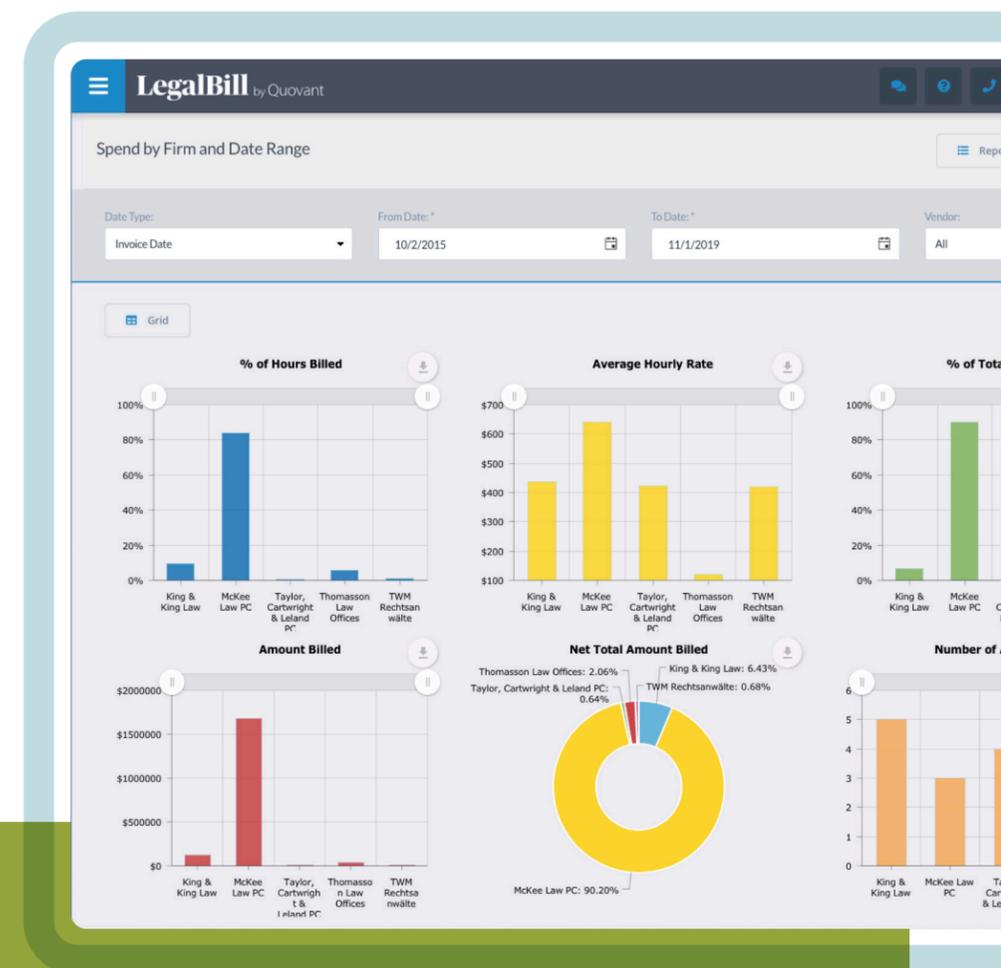

- Easily view, approve or reject adjustments.
- Transfer approved invoices to AP, and keep the process moving.
- Post bill status to the LegalBill law firm portal.

You'll get a quick, clear view of where you're spending.

It's simple to spot savings and boost performance, because you'll have an in-depth understanding of all your legal data.

- Configure your reports however you like, and deliver customized insights across your business.
- Out-of-the-box reports and a custom report builder help focus you in on key insights across matters, law firms, invoices and users, and you can easily share the results with your teams.
- All reports can be exported into Excel, and charts and graphs can be downloaded for use in presentations.

And you can start as soon as now.

LegalBill isn't like traditional, enterprise legal management systems. It's built for teams like yours, and because it's in the cloud, it's ready to go the moment you are.

- Guided, self-service onboarding tools—along with live chat and a dedicated client success team—mean you have everything you need to get started.
- Set up matter details in minutes.
- Try it risk free for 30 days and take advantage of a low monthly subscription rate after that.

Savings and simplicity,
without spending a dime.

Try LegalBill free, for 30 days. And see how quickly it pays for itself.
